## I. International Translation Day

The National Translation Mission celebrated the International Translation Day – 2022 (ITD-2022) on 30<sup>th</sup> September, 2022 with day long events. Commemorating translation day is an initiative by the United Nations. It is in line with NTM's aims of foregrounding translation and bringing visibility to translators and translation activities. NTM had actually organized a couple of two week training programmes for translators from 15<sup>th</sup> to 30<sup>th</sup> September which ended on the International Translation Day. On 29 & 30 September, NTM organized an exclusive panel discussion on rethinking the structure, methods and modes of NTM after 14 years of its existence. The panelists also discussed initiating training programmes for interpreters along the lines of training of the translators as there is a growing need for interpretation that is recognized in NEP-2020. A veteran Indian language translator was felicitated during the celebrations as a token of respect for the contributions by translators and experts in the efforts of NTM. A cultural event highlighting the scope for Indian languages was also organized on the day.
