This is an on-site workshop. We look forward to seeing you at CUK.

About the Workshop: In today's globalized world, fostering cross-cultural understanding is essential, and translation plays a crucial role in bridging linguistic and cultural gaps, facilitating effective communication and idea exchange. In India, with its diverse linguistic landscape, proficient translation skills are particularly vital for preserving cultural heritage and promoting inclusivity. This need extends to academic fields, where effective translation is necessary for disseminating knowledge across language barriers and reaching wider audiences. The workshop aims to address these challenges by equipping participants with the skills to improve their translation abilities, empowering them to navigate cross-cultural communication with confidence. Ultimately, by enhancing translation skills, the workshop contributes to building bridges between cultures, fostering mutual respect, and advancing scholarly exchange and collaboration.

Themes in Focus:

1. Introduction to translation, interpretation and adaptation
2. Translation strategies for texts of science, technology, social science, and humanities.
3. Machine translation, CAT tools, AI-based utilities
4. Proofing, reviewing and post editing
5. Language Sensitization and Linguistic input
6. Translation quality assessment and validation
